# TECHNOLOGY RESELLER 2022 AWARDS

*“Every industry deserves a special Awards Programme and Awards Evening to celebrate the achievements and successes of suppliers, customers and people.”*

## Our Industry, Your Awards

These are exciting times for the IT industry, as new and emerging technologies start to transform how businesses compete, how Governments deliver services, how teachers educate and how doctors treat and care for patients.

The IT channel has a critical role in driving this change. From the provision of strategic advice to the implementation and monitoring of IT infrastructure, systems and apps, the UK’s distributors, MSPs, VARs and resellers are helping to shape the future of UK business, working in partnership with clients to provide the agility and resilience on which the UK’s future prosperity depends.

Throughout the Covid-19 pandemic, organisations of every size and type have relied on resellers and MSPs – and vendors and distributors – to provide the expertise, equipment, systems and connectivity necessary to operate remotely. As those organisations digest the lessons of lockdown and accelerate their digital transformation programmes, it is to the IT channel that they will once again turn for guidance.

We have set up the **TECHNOLOGY RESELLER AWARDS 2022** to recognise and celebrate the massive contribution that technology vendors, distributors, MSPs, resellers and service and maintenance companies make to UK plc and the wider community. The awards will honour the achievements of businesses throughout the IT channel, highlighting best practice and innovation to inspire everyone who works in, or with, this extraordinary industry.

**We look forward to welcoming you to the inaugural TECHNOLOGY RESELLER AWARDS at The Hilton London Bankside on Thursday 26th May 2022.**
