Our Industry, Your Awards

These are exciting times for the Comms, IT and Workplace Print industry, as new and emerging technologies transform how businesses work together and compete.

The Collective Channel has a critical role in driving change. From the provision of strategic advice to the implementation and monitoring of infrastructure, systems and apps, the UK's distributors, MSPs, VARs and resellers are helping to shape the future of UK business, working in partnership with clients to provide the agility and resilience on which the UK's future prosperity depends.

Companies and organisations of all sizes are growing more reliant on technology resellers and MSPs to implement and provide solutions backed-up by vendors and distributors who visualise, create and supply the expertise, equipment and connectivity needed to operate securely from any location. As organisations accelerate their digital transformation programmes, it is to the Collective Channel that they will turn for guidance, again and again.

The **TECHNOLOGY RESELLER AWARDS 2026** are here to recognise and celebrate the massive contribution that technology vendors, distributors, MSPs, resellers and service and maintenance companies make to UK plc and to the wider community. The **TECHNOLOGY RESELLER AWARDS** will once again honour the achievements of businesses throughout the IT channel, highlighting best practice, sustainability and innovation to inspire everyone who works in, or with, this extraordinary, vital industry.

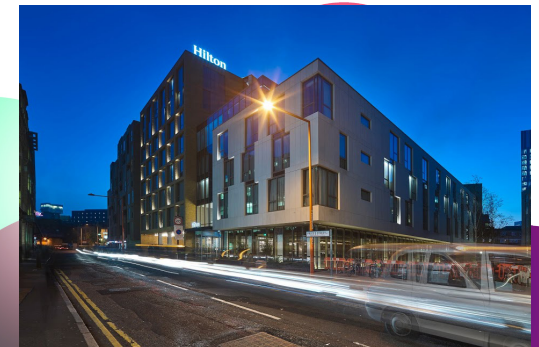

We look forward to welcoming you to the TECHNOLOGY RESELLER AWARDS 2026 at the Hilton London Bankside on Thursday 21st May 2026.

"Every industry deserves a special Awards Programme and Awards Evening to celebrate the achievements and successes of suppliers, customers and people."
